

The New Earth at The Year 2023

Part 3

Everywhere everyone is preparing for Earth's Big Shift to The New Earth. Right now, the extraterrestrials have increased their amount of new contacts and the UFO landings that occur on Earth. Many different good and nice extraterrestrials are helping to let people and animals know: "We are about to help you all with Earth's Big Shift". It is all about trying to change our consciousness, just a little bit, to be open for the changes coming with the Big Shift.

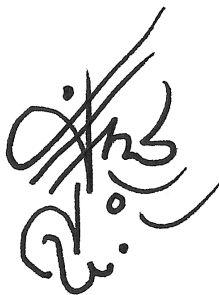

Sadly, there are also negative extraterrestrials, that don't want us to grow spiritually and move to The New Earth, where we would be safe and protected from them. Some of the world's governments have contact with the "wrong" kind of extraterrestrials. Those governments like to exploit the extraterrestrial's knowledge and technology for their own huge benefits, not knowing that by doing this, they are selling out themselves and bits of humanity. We can slow this down and even work against this with any level of Universal White Time Healing or Board of Knowledge.

I have prepared a document for a "Day or Week Schedule" for working with this Earth, The Big Shift and The New Earth. Of course, you have to be a practitioner of Universal White Time Healing or Board of Knowledge, on any level or with any Board knowledge, to be able to use the document and perform the work I am referring to. But, of course, anyone else can help in their own way with good thoughts, healing, prayers, etc. They, the people without these kinds of education, can use the Sign that I have added in this document, see below.

I just want to say one thing, don't worry about anything. Everything is going to be okay for everyone on Earth. The light will always prevail, because even the smallest candle can light up the darkest room.

Next time I will come back with some nicer facts and news from The New Earth. It was just that I felt that these things had to be said now.
